Dr. April Warren, DNP, NP-C

Heather Sys, MBA, BSN, RN

SIM-ND

Conference objectives

Upon completion of this program, the participants will be able to:

1. Describe clinical judgment and its relevance to contemporary nursing practice.
2. Recognize barriers in the healthcare setting that inhibit the growth and development of clinical judgment in students and practicing nurses.
3. Discuss the importance of holistic care for the individual with co-occurring mental health conditions.
4. Illustrate how simulation can be utilized to enhance clinical judgment.
5. Identify signs and symptoms of compassion fatigue and risk factors leading to compassion fatigue.
6. Explain and demonstrate different techniques that can be utilized to reduce the risk of compassion fatigue.
7. Identify supportive factors in the healthcare setting that promote the growth and development of clinical judgment.
8. Describe ways educators and clinical partners can collaborate to foster clinical judgment and development in students and practicing nurses.
